## Selecting the dataset to upload into the Cognos:

## Uploading the dataset to perform the preparation and visualization:

The screenshot displays the IBM Cognos Analytics with Watson user interface. At the top, a dark header bar contains the application name, a search bar, and user controls. A file upload progress bar is visible, showing the file '201810-citibike-tripdata.csv.zip...' being read. Below the header, a large welcome message is followed by two buttons: 'Watch video' and 'Take a product tour'. To the right, there is a 3D isometric graphic of data cubes and server racks. Below this, a 'Quick launch' section is expanded, showing four main workflow steps: 'Upload data' (with an upload icon), 'Prepare data' (with a puzzle piece icon), 'Exploration' (with a magnifying glass icon), and 'Present data' (with a presentation screen icon). Each step includes a brief description of its function. At the bottom, there are tabs for 'Get started' and 'Recent'.
